Dear Parents :

Hello everyone ! I am the school social worker Ms Yung Ka Yu. It is my pleasure to meet the parents and your child, I will be at your service on Monday and Thursday from 8.45am to 5.30 pm providing consultation and support.

My duty is to observe the children behavior and emotion, working closely with parents and the school to gather all information then set up individual meetings and group activities which best suit their development and needs. We design many different fun activities, such as storytelling, drawing and games, so that the children will learn through play and learn how to express their feelings. We guide them to enhance their ability in positive thinking and to have problem solving skills which promotes a friendly and harmonious school life.

The school social worker will provide consultation and support services to parents. We hope through various activities such as parents workshops, group discussions and parent-child activities, we can offer further support from the parent's point of view; to help and set up individual learning plan with a rewarding system and follow up each case.

Please contact us through the school staff if you have any queries. We would like to share some experiences, hoping this will help you. Let's all try and foster our children's growth together.
